### REVIEW MARKETS, SHIPPING OF' THE NEWS REAL ESTATE Business. AND

New York, April 12.—There was a wild rush to buy at the opening and the specialties made large gains, which they retained little, while the railways which had improved smartly, left off at about yesterday's figures. The rise of Americans in London before the opening and the momentum of yesterday's advance were responsible for the early excitement in the market. Call money ranged from 4 to 5, closing at the lower figure, and sterling exchange was strong throughout, demand sterling rising 42.

The rapidity of the early advance induced heavy realizations, but a general tone of strength prevailed until the afternoon, when some sharp recessions occurred.

The killing of American and English

afternoon, when some sharp recessions occurred.

The killing of American and English navy officers in Samoa seemed to arouse apprehension in some quarters of further complications. Among the specialties strong features were Brooklyn Transit, Consolidated Clas, People's Clas, Sugar and the iron and steel shares. Battimore and Ohio issues, Norfolk and Western preferred and Northern Pacific were strong. Foreign houses were early purchasers, but resold about half as much on the local rise. Some of the foreign purchasing was connected with London's fortnightly settlement. A number of shorts were driven to cover early, owing to the commission house demand, especially for Industrials, because of a more liberal position taken by a number of banks toward such stock. The market closed steady.

There was more activity in railroad.

NEW YORK COTTON MARKET.

New Work, April 12.—Speculation in cotton was narrow, and for the most part local. English advices were unsatisfactory, and accounts regarding the progress of the crop were conflicting. Hence there was a disposition to be conservative on the part of all classics of traders. The first call developed some irregularity, near positions opening 1 point higher and some of the later months opening 1 lower. Few commission houses or brokers had any orders, and throughout the session trading was quite local in its character. A generally weak undertone developed as the result of the cables, the generally favorable character of the weather news, some reports from Fall River indicating possible troubles with the mill hands over the question of time and wages. The weekly government report issued this morning made little impression. The close was steady at a net loss of 1 to 3 points.
